Professional Series Data Comm Applications

VELCRO® Brand Professional Series offers fasteners that organize cable pathways and aids in mounting equipment for data communications. VELCRO® Brand ONE-WRAP® Tapes are flexible, reusable, easy to reposition, and soft to prevent damage to cables, but strong enough to maintain large cable bundles in a pathway. ONE-WRAP® Tape also includes a fire retardant version for use in plenum space. These fasteners are an adjustable cable management solution that is available in colors that match various cable jackets and identifies specific pathways within different applications. VELCRO® Brand ONE-WRAP® Tape’s flexible material reduces stress on cables which helps installers align with TIA-568.D-0 (2018) recommendations. It also complies with NEC (section 300.22, C and D) and is the recommended hook and loop fastening solution of choice by BICSI (ITSIMM, 7th edition) standards.

Smart Solutions for Contractors and Installers

1. Keep cable bundles secured and organized for optimal air flow to help keep equipment cool. Quickly identify pathways and create a clean look through the use of color coded fasteners.
2. Coordinate spaces and ease the process of moves, adds and changes.
3. Soft materials prevent overtightening and won’t damage cables or restrict data flow. Flexible to adapt to curved pathways.
4. Fire retardant solution for use in plenum space according to NEC standards.
5. Organize cables, cords, and wires within work stations.

### Benefits

**Labor savings**
- Lowers risk of damaging cables & surfaces
- Reusable & repositionable
- Flexible to support moves, adds, or changes
- Can be cycled up to 2,000 times

**Practicality**
- Easily identify using 13 different colors
- Fire retardant version available for plenum space
- Complies to TIA Standard (568.D-0, 2018)
- Preferred fastener according to BICSI (111SMMM, 7th Edition)

**Compliments**
- Fiber optic cable systems
- Ethernet, copper cable systems
- Racks, cabinets and trays
- Patch cable management

Have you considered our adhesive-backed hook & loop as alternatives to traditional fasteners?

VELCRO® Brand Professional Series fasteners allow devices to be removed and repositioned, which eases the process of installing and upgrading data comm equipment. From general use to industrial applications, our Professional Series products are a smart alternative to traditional fasteners and a must-have for any contractor and installer.
