

Professional Series Pro AV Applications

VELCRO® Brand Professional Series offers fasteners that organize cable pathways and aid in mounting equipment for pro AV systems. VELCRO® Brand ONE-WRAP® Tapes are flexible, reusable, easy to reposition, and soft to prevent damage to cables, but strong enough to maintain large cable bundles in a pathway. ONE-WRAP® Tape also includes a fire retardant version for use in plenum space. These fasteners are an adjustable cable management solution that is available in colors that match various cable jackets and identifies specific pathways within different applications. VELCRO® Brand ONE-WRAP® Tape's flexible material reduces stress on cables which helps installers align with TIA-568.D-0 (2018) recommendations. It also complies with NEC (section 300.22, C and D) and is the recommended hook and loop fastening solution of choice by AVIXA (F502.01:2018) standards.

Smart Solutions for Contractors and Installers

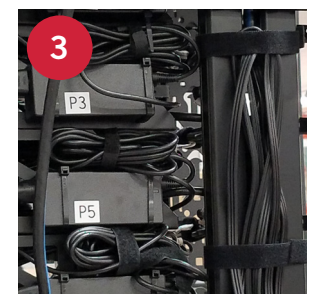

- 1 Keep cable bundles secured and organized for optimal air flow to help keep equipment cool.
- 2 Coordinate spaces and ease the process of moves, adds and changes. Flexible to adapt to curved pathways.
- 3 Soft materials prevent overtightening and won't damage cables or restrict data flow. Create a clean look through the use of color coded fasteners.
- 4 Fire retardant solution for use in plenum space according to NEC standards.
- 5 Organize cables, cords, and wires within work stations.
- 6 Eliminate damage and enable repositioning with no tools required.
